Introducing the New, the Beautiful in Blithesome Styles for Spring

Beautiful Dresses that Dominate Among the Accepted Modes

Spring, splendid, joyous, happy spring is sending forth first notes of its arrival! Life takes on new pleasures, new activities; something in the way of renewed spirits awakens within us all new interests. Spring, the great rejuvenator, is working its magic. We all feel it. And this same magic is reflected in these attractive dresses so very new.

They are for afternoon, country club and restaurant wear, so they are fashioned of lovely crepe de chine allied with organdy in shades of coral, flesh, and white. Printed georgettes with dainty collars and cuffs of organdy and real lace, with sashes of ribbons and corsages of pastel flowers vie with other

models of rich taffeta combined with organdy or laces and nets, some with applied flowers in shades of brown, French blue, navy or black. There are, of course, styles for small women as well as for women of more commanding stature. The selections offered are unusually commendable.

Announcing Our Spring Showing of Distinctive Hats

Innovations of Milan, liars, hair braids, and Xcelophone—origination from some of America's foremost millinery creators, exact duplications of exclusive originals and our own conceptions of the modes.

Their first attractions are variously enhanced by their decorations of ostrich, artistic feather fancies, gayly colored fruits and flowers as well as rich, elaborate embroidery. The different collections attract quick interest.
